DIVISION OF  
OIL, GAS & MINING

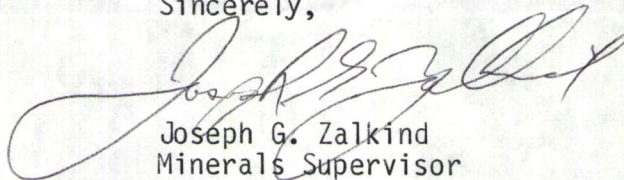

Dear Mr. Tetting:

Thank you for your recent correspondence detailing Utah's problems with the above mine.

A joint inspection of the site is an excellent suggestion. Since the mine is in a far corner of our state, and since current weather conditions may make an adequate inspection impossible, a certain amount of lead time in scheduling our inspection might be helpful.

We are open to your suggestions.

Sincerely,

Joseph G. Zalkind  
Minerals Supervisor
